

BROKER SPOTLIGHT

FRC Land Co, LLC

For more than half a century, Forest Resource Consultants (FRC) has provided real estate brokerage, forest management, valuation, and technical services to private landowners, institutions, and industry. FRC's real estate division, FRC Land Company, LLC, has the goal of helping people buy and sell timberland, farms, and recreational properties. Given their long history in forest consulting industry, the company and its employees understand the intricacies of buying and selling rural, recreational land and is dedicated to helping buyers find the ideal investment to meet their needs. Simply put, the folks at FRC are land experts in Georgia and throughout the Southeast.

As Director of Real Estate Services, Shane Boyer is responsible for identifying opportunities to expand the company's real estate client base, provide oversight of real estate transactions, and participate in marketing of both the company and its listings. He assists David Foil, FRC's Broker-in-Charge, in the management of a team of real estate professionals consisting of both employees and independent contractors to bring PotlatchDeltic properties to the market. A Georgia native, Shane has been involved in the timber and farming community for nearly a quarter century. He has held many client-servicing roles at FRC, Greencone Investments, and AgSouth Farm Credit. He also spent several years procuring wood for timber dealers in northern and central Georgia. He is a University of Georgia graduate with a Bachelor of Science in Forestry.

Shane said, "We are excited to join the PotlatchDeltic Preferred Broker Network. Through our work with the previous owner, we know these properties intimately. This invaluable experience will help us guide prospective buyers to properties that meet their land ownership goals and objectives. Georgia is a rapidly growing state, and land values continue to rise. As compared to some surrounding states, Georgia's land values are relatively low. We have seen an increase in buyers seeking property they can enjoy recreationally while still considering it an investment."

When Shane is not in the field showing listings or scouting other properties, he can be found spending time with his wife and two daughters on their cattle farm, a cow-calf operation located in Morgan County, Georgia. A lover of the outdoors, Shane enjoys turkey hunting and archery hunting for whitetail deer. He said, "FRC is passionate about connecting people to the land. I wholeheartedly agree as I believe the inherent values taught from caring for the land and God's creations are the ultimate reward. Stewardship and upkeep of the earth is one of the greatest responsibilities we can have."
