

BROKER SPOTLIGHT

Farm and Forest Brokers

Farm and Forest Brokers is proud to be a part of the PotlatchDeltic Preferred Broker Network. The Farm and Forest Brokers team helps people purchase PotlatchDeltic-owned recreational and timberland investment properties throughout Alabama, which is a natural fit with its core business being rural land sales.

Farm and Forest Brokers was founded with the singular focus of helping people buy and sell farms and ranches, timberland, and quality hunting and recreational properties.

Jonathan Goode

Jonathan Goode is the Responsible Broker for Farm and Forest Brokers, and he has been representing the sales of PotlatchDeltic property since 2017. Rick Bourne and Jonathan have been working with PotlatchDeltic since they began using real estate brokers to help market and sell their properties across Alabama.

For Goode, the work ties into his love of the outdoors. He lives on a 70-acre farm near Marion in Perry County, Alabama, where his family grows much of its own food and enjoys spending time outdoors.

“Like many people, I want my children to have opportunities to be in the garden, to play in the creek, and to enjoy hunting, fishing, and just being outdoors,” he says.

Jonathan is an Accredited Land Consultant (ALC), a prestigious designation of the Realtors Land Institute (RLI) earned by land brokers who have demonstrated significant skill and knowledge in their field. He served as president of the Alabama Chapter of RLI in 2016. Jonathan hosts the weekly radio program, The Land Show, and contributes land-related articles for LandThink.com and the RLI blog.

“Being part of the PotlatchDeltic Preferred Broker Network is a real privilege,” Jonathan says. “We appreciate the opportunity to serve in a Network that includes some of the top land sales professionals in the country. Prospective buyers appreciate property that has been well managed, and PotlatchDeltic is known for being good stewards of their lands.”
